

# STAY CONNECTED

Corpus Christi Montessori School believes communication with parents and the community is important. This chart will show you the different ways you can regularly keep informed, but particularly during an **emergency**. Items highlighted are go-to places during emergencies or communication of important information. During an emergency, the goal is to get accurate information out as fast as possible using many channels of communication to accommodate a variety of preferences of receiving information. The communication methods on this chart are official means of communication from the CCMS.
